**10** The straight line **L** has gradient 5 and passes through the point with coordinates (0, −3)

(a) Write down an equation for **L**.

.....

**(2)**

(b)

The region **R**, shown shaded in the diagram, is bounded by four straight lines.

Write down the inequalities that define **R**.

.....

**(2)**

**(Total for Question 10 is 4 marks)**
