7	(a)		$-2, -1, 0, 1, 2$	2	B2	(B1 for 4 correct values and no incorrect values (eg –1, 0, 1, 2) **or** for 6 values with no more than one incorrect value (eg –2, –1, 0, 1, 2, 3))
	(b)	$7t - 2t \leq 31 + 3$ **or** $5t \leq 34$ **or** $-3 - 31 \leq 2t - 7t$ **or** $-34 \leq -5t$ oe		2	M1	t terms on one side and numbers on the other. Condone = rather than ≤ or any other sign for this mark.
		Working required	$t \leq 6.8$		A1	oe (dep on M1) eg $t \leq \frac{34}{5}$ **or** $t \leq 6\frac{4}{5}$ **or** $6.8 \geq t$ Must have correct sign on answer line (sight of correct answer in working space and just 6.8 oe on answer line gains M1 only)
