6	For one of $w \div 1000$ or $w \div 10^3$ or $w \times 10^{-3}$ or $0.001w$ oe $(w \times 60 \times 60)$ oe or $w \times 3600$ or $w \div \frac{1}{3600}$ oe		3	M1 or $\frac{3600}{1000}$ or $\frac{18}{5}$ or 3.6 oe (without a link to w)
	$\frac{w \times 60 \times 60}{1000}$ oe eg $w \times \frac{3600}{1000}$			M1 For a fully correct method including w
	Correct answer scores full marks (unless from obvious incorrect working)	$3.6w$		A1 or $\frac{18}{5}w$ or $3\frac{3}{5}w$ allow $3.6 \times w$
				Total 3 marks
